

Advertise With Us

We like to make finding your substance abuse recovery program as easy as possible for those people seeking drug and alcohol treatment. To that end, we allow all residential rehab centers in California to freely list their facility at California Residential Rehabs. For extra exposure, we also offer paid sponsorship plans to residential rehab centers both inside and outside of California, though we give preferential treatment to facilities located in California. Your partnership in our sponsorship program allows us to continue to bring these services to those suffering from addiction.

California Residential Rehabs offers three different ways in which your drug and alcohol treatment facility can gain additional exposure. The first method is by adding a picture and logo to your listing to make them more visually appealing. A photo and logo may be added to your treatment facility listing for a one time fee of \$10 each. The second method is called the "Enhanced Listing". An "Enhanced Listing" will place your treatment center at the top of each page under its regional category, as well as allowing your treatment center to add photos and logos to your listing. Only one Enhanced Listing is available per regional residential rehab category. To enhance your treatment centers listing at California Residential Rehabs, just:

- Log into your account
- Edit Your Free Listing (go to the listing you added and click edit)
- Click the Add Image button in your listing and go through the secure payment gateway and/or...

- Click the Add Logo button in your listing and pay via our secure payment gateway

The fee for an Enhanced Listing is \$50 per month for a term of no less than six months. Site Sponsorship

The second and more exclusive form of advertising is the California Residential Rehabs Site Sponsorship package. The Site Sponsorship package advertises your site on every page of California Residential Rehabs. We never take more than three (3) Site Sponsors, so your facility will not compete with anymore than two (2) other California Residential Rehab facilities. Site Sponsorship packages run for a minimum of 6 months and can contain text, links, images and custom backgrounds. The Site Sponsorship ads are located at the top and bottom of every page and we rotate the position of the ads throughout the pages of the site so that no location is owned by any sponsor. Our published Site Sponsor fee is \$250 per month, but we often negotiate lower rates when facilities bundle advertising on our other network sites. Please contact us with any inquiries about advertising. We are most interested in getting helpful information to those seeking treatment, so we are willing to work with you within your budgetary constraints. Advertising Specials

In addition to our two traditional types of advertising, California Residential Rehabs may also fashion special advertising on a page-by-page basis. Please contact us for details.
